# Shravan Dige

MBA Tech – Computer Engineering & Management • NMIMS Mumbai • Class of 2028

dighe.shravan2005@gmail.com • +91 85918 98527 • linkedin.com/in/shravan-dige-655506234 • github.com/digheshravan

## PROFILE

Computer Engineering student at NMIMS Mumbai pairing a full-stack and AI engineering practice with a management stream in Business, IT & Analytics. Has shipped a retrieval-augmented generation pipeline professionally during a technical internship, alongside self-directed full-stack web and cross-platform mobile products. Currently building an LLM-based risk analysis tool over IPO regulatory filings, applying data and finance coursework directly to an engineering problem.

## EDUCATION

| Qualification | Institution | Board / University | Year |
|---|---|---|---|
| MBA Tech | Mukesh Patel School of Technology Management & Engineering, NMIMS | NMIMS Mumbai | 2024–2028 |
| Diploma (Computer Engg.) | Pravin Patil College of Diploma Engineering & Technology | MSBTE | 2021–2024 |
| SSC (Class X) | Sardar Vallabhbhai Patel Vidyalaya | MSBSHSE | 2020–2021 |

## CORE SKILLS

| | |
|---|---|
| **Languages** | Python, Java, Dart, JavaScript, SQL |
| **Frameworks** | React, Angular, Spring Boot, Flutter, REST APIs |
| **AI & Data** | Artificial Intelligence & Machine Learning, Generative AI & RAG, Data Analysis & Visualization |
| **Tools** | Git, GitHub, Figma, Android Studio, VS Code |

## PROJECTS

### DocMind – AI Document Intelligence *2026*

*FastAPI • React • Groq (Llama 3.3) • ChromaDB • RAG*

AI-powered document intelligence platform. Legal Intelligence Suite for contract risk analysis and clause classification; Research Synthesizer cross-references up to 15 academic papers to surface contradictions. RAG-grounded chat assistants cite their source document.

### IPO Prospectus Risk Decoder IN DEVELOPMENT *2026*

*LLM Analysis • Python • Risk Scoring*

LLM-based tool that extracts and scores risk factors from IPO DRHP filings, benchmarks them against comparable filings, and flags disclosures that read as obscured or understated.

### MediSlot – Doctor Appointment Application *Oct 2025*

*Flutter • Dart • Supabase*

Flutter-based healthcare application for doctor discovery, appointment scheduling, location services and appointment management, backed by Supabase with row-level security policies.

### Car Rental Management System *Apr 2025*

*Angular • Spring Boot • MySQL*

Web-based car rental system with a Spring Boot REST API secured by JWT authentication, an Angular single-page frontend, and a normalised MySQL schema for inventory, bookings and billing.

## SUMMER INTERNSHIPS

### Flutter Developer — Tyrannix Pvt. Ltd. *18 May – 11 Jul 2026*

Contributed to the Pet Care Knowledge Portal & Intelligent Assistant through a retrieval-augmented generation implementation and UI component development for intelligent pet-care solutions.

## ACHIEVEMENTS & CERTIFICATIONS

- **Smart India Hackathon (SIH) 2025** – Selected at College Level (Round 1). Competed among top national student innovators developing tech-driven solutions for real-world challenges (27 September 2025).
- **Bloomberg Market Concepts, Finance Fundamentals & Spreadsheet Analysis** – Bloomberg (Aug 2026).
- **UI/UX Design Certification** – InternShala, six-week programme covering UI/UX fundamentals, Figma, design systems and responsive design (Sept 2022).
